Experience

AccioJob

Oct 2024 – Apr 2025

Software Developer Engineer (Intern)

- Built frontend apps and dashboards, improving HTML/CSS/JavaScript/React skills.
- Developed YouTube Clone, Spotify Clone and BlinkIT Clone using HTML, CSS and JavaScript.
- Strengthened collaborative, problem-solving, and planning skills through real-world project delivery.

Projects

TripTide | HTML, CSS, JavaScript, ReactJS

- It provides a platform for booking tours. It can also generate tours on the basis of user input.
- Designed a responsive travel booking interface used by 100+ users; implemented dynamic tour generation logic based on user input.

Housing Society Management System | HTML, CSS, Java, MySQL

- It streamlines various administrative and operational tasks, improving efficiency and communication within a community by managing finances, maintenance, security, and resident interactions.

YouTube Clone | HTML, CSS, JavaScript

- Built a responsive YouTube clone using HTML, CSS, and JavaScript during my internship, replicating core UI elements like video thumbnails, search bar, and navigation layout to enhance my frontend development skills.

Skills

- **Languages Technologies:-** Python, Java, SQL, JavaScript, HTML5, CSS3, ReactJS
- **Tools:-** Git, GitHub, Postman, Figma, MySQL
